Cadex Battery Testing Procedure

Battery Testing:

1.) Turn the power ON with the switch at the rear of the unit.

2.) Insert a battery into the cradle. MAKE SURE THE BATTERY CONTACTS ARE FREE OF CORROSION BEFORE INSERTING BATTERY. A depleted battery is preferable, as the testing process involves fully charging and discharging the battery twice; the depleted battery will allow a more accurate read of the initial charging pulse.

3.) The battery analyzer has been set up to automatically run the program 'AUTO' when a battery is inserted. The tester will then begin the testing process. Battery servicing takes anywhere from minutes to hours. While the battery is being analyzed, an orange light will show next to the word 'Run' in front of the corresponding station.

If the battery is completely discharged and unusable the display for that battery position will remain at EMPTY. You can remedy this by BOOSTing the battery. Simply press the battery's corresponding station button for 2 seconds.

4.) If the battery passes the test, the green READY light will be lit, and a capacity percentage 80% or higher will be displayed on the screen. Take the battery out and place a green sticker in the white groove on the back of the battery. It can now be deployed to a charger on the floor.

If the battery does not pass, the red FAIL light will be lit. Pressing the corresponding station button will display information about the battery just tested. If the battery has a capacity of 79% or lower remove the battery from the adapter and place a red sticker on the back. If the battery tests as an INTERRUPT or Intermittent battery, remove the battery and place a blue sticker on the back. In either case the battery is not to be deployed to the floor. Place the battery in the bad battery shelf on the shelf in the IT office.

RightSource shipments are typically delivered to your home within 7–10 days from the date of your order. Call 1-800-379-0092 (TTY: 711), Monday–Friday 8 a.m.–11 p.m. and Saturday 8 a.m.–5:30 p.m. if you don't receive your shipment within this time frame.

HMM Lecture Notes

Rene Haberman and Dennis Dreuel

Tuesday, October 31st

1 Overview

In last two sessions on HMMs Andrew presented the theory and basic algorithms of HMMs. We are given observed sequences $O = O^1, ..., O^k$ and wish to estimate an HMM with parameters λ to model these sequences.

In the sequences we labeled the state path so as to design the topology. Once the states and transitions were known chances of emission and transition probabilities can be estimated easily using MLE. If the sequences are unlabeled, as it is necessary with e.g. speech recognition and to learn the topology and the model parameters, the Baum Welch algorithm will learn the parameters from the data and a loose upper bound for the number of states. To determine the model explicitly, we use the Viterbi algorithm to find the most likely sequence of each input sequence.

In the current lecture we discuss the Baum Welch algorithm and introduce topology modeling. In the next session we focus on how to make the model more robust and consider more Profile HMM models.

2 Notation

1. N states $S_1, S_2, ...$
2. M symbols (alphabet) Σ
3. parameters λ
   1. state transition probabilities $a_{ij} = P(q_{t+1} = S_j | q_t = S_i)$. Note that $\sum_{j=1}^{N} a_{ij} = 1 \; \forall i$
   2. emission probabilities (or probability mass) $b_j(k) = P(\text{symbol } v_k \text{ at } t \mid q_t = S_j)$
   3. initial state distribution $\pi_i = P(q_1 = S_i)$
4. Sequence of symbols $O = O_1 O_2 \ldots O_T$
5. Sequence of states $Q = q_1 q_2 \ldots q_T$

3 Baum Welch

In general we are given labeled data (i.e. we know the state sequence) we can estimate the parameters using Maximum Likelihood Estimation. The Baum-Welch algorithm is used to estimate the model parameters when the state path is unknown. Given sequences $O = O^1, ..., O^k$ we wish to estimate $\lambda = (a_{ij}, b_j(k), \pi_i)$. We generally want to choose λ in order to maximize the likelihood of our data

Subject: Fax board on ID # 42084 Procedures & Medical Records MX-M623N
Attachments: scanner@showtask.com_20120717_093801.pdf

I am following up on my request that was part of this email sent to you on 7/17/12 regarding getting ID #42084 in Procedures on the MC-M232D copier hooked up to fax. Remember how to use the fax function and also show them how to program phone numbers into the copier. (This unit is located on the 2nd floor of our 4580 California Ave location)

We also need to have the Surge protector hooked up to the MX-M623N copier in our Medical Records Dept. this copier also needs to have and Equipment ID number assignee to it. (I have given the 20 amp power surge protector to Shanau in Medical Records.)

To test the send functionality of your fax machine, send a one-page fax to 1-855-330 1239 (a toll-free number in the United States) When it's finished transmitting, point your web browser to Fax Toy -- it's a fun web site that displays whatever is faxed to that number Within a minute, your fax should appear on the site. Click the thumbnail to see a large version

To test the receive functionality of your fax machine, point your web browser to FaxZero this site lets you send faxes for free to anywhere in the United States and Canada Within a few minutes, your fax machine should ring -- hopefully It will automatically answer and spit out the test fax

Presumably you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both:

To test the send functionality of your fax machine, mail a one-page fax to 1-855-330-1239 (a toll free number in the United States.) When it's finished transmitting, point your web browser to FaxToy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero; this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

Dear Account Holder:

Through our recent verification process, we have been notified by the state of VT that the International Fuel Tax Agreement (IFTA) account we have on file for you – 82442283 – is "invalid" or "not found" in your database.

One possible reason for this is that we have an incorrect account number in our system. If the number listed above does appear to be correct, please fax a copy of your current IFTA license to (866) 458-0460, Attn: Verifications, by Friday, February 09, 2018. You can also email the credentials image(s) to us at verify@prepass.com.

To ensure your account is updated correctly, please use this letter as a cover sheet when sending in your correspondence.

If the account number above is accurate, you must first contact the state to resolve the discrepancy and then contact the PrePass Verifications Team at (866) 773-7277.

Once we have received your updates or been contacted about the resolution of your IFTA account status, we will follow up with the state to confirm your account's validity. If we do not receive your updated IFTA license or communication by Friday, February 09, 2018, we will contact the PrePass account owners who are using your license. The latest PrePass systems in any participating state credentials attached. Failure to receive a response will result in non-activation of the current PrePass credentials attached. Failure to receive a response will result in non-activation of the current PrePass status. This could prevent their trucks from bypassing at PrePass sites until the state provides that the credential is valid.

Thank you for your prompt attention to this matter.

Difference Between Quality Assurance And Quality Control

The summary of discussions at QualityCurve.com

February 2011

What is the difference between Quality Assurance and Quality Control?

ISO 9000 Definitions [1]

- **Quality Control** – "A part of quality management focused on fulfilling quality requirements."
- **Quality Assurance** – "A part of quality management focused on providing confidence that quality requirements will be fulfilled."

Other Definitions [2]

- **Quality Assurance** is defined as "All the planned and systematic activities implemented within the quality system that can be demonstrated to provide confidence that a product or service will fulfill requirements for quality."
- **Quality Control** is defined as "The operational techniques and activities used to fulfill requirements for quality."

- **Quality Assurance** is fundamentally focused on planning and documenting those processes to assure quality including things such as quality plans and inspection and test plans.
- **Quality Control** on the other hand is the physical verification that the product conforms to these planned arrangements by inspection, measurement etc.

Every body doing his best is not the answer. It is first necessary that people know what to do. – Out of the Crisis, W.Edwards Deming

- **Quality Assurance** is a system for evaluating performance, service, of the quality of a product against a system, standard or specified requirement for customers.

[1] ISO 9000:2005 Quality Management Systems Fundamentals and Vocabulary
http://www.qualitysystemsconsultants.com/modules/mastertitle/index.php?id=1567

- **Quality Control** is the process involved within the system to ensure job management competence and performance during the manufacturing of the the product or service to ensure it meets the quality plan as designed.

- **Quality Control**
  - What. The activities or techniques used to achieve and maintain the product quality process and service.
  - How. Finding & eliminating causes of quality problems through tools & equipment so that customer's requirements are continually met
- **Quality Assurance**
  - What. Prevention of quality problems through planned and systematic activities including documentation.
  - How. Establish a good quality management system and the assessment of it's adequacy & conformance and of the operation system & the review of the system itself

- **Quality Control** just measures and determines the quality level of products or services. It is a process itself
- **Quality Assurance** is a complete system to assure the quality of products or services. It is not only a process, but a complete system including also control. It is a way of management.

How to become a Veterans Choice Program and/or Patient-Centered Community Care Provider

VA Community Care Fact Sheet for Interested Providers

On August 7, 2014, the President and Congress enacted the Veterans Access, Choice, and Accountability Act of 2014, which directed the establishment of the Veterans Choice Program to improve access to care and to meet the short term health care needs of our Nation's Veterans. Under the Veterans Choice Program, eligible Veterans have the ability to receive VA health care in their communities rather than waiting for a VA appointment or traveling to a VA medical facility. The Veterans Choice Program does not impact existing VA health care or any other Veteran benefits. For additional information on the Veterans Choice Program, including eligibility criteria, please visit the *Veterans Choice Program website [http://www.va.gov/opa/choiceact/index.asp]*

VA has expanded its Patient-Centered Community Care (PC3) contracts with Health Net Federal Services and TriWest Healthcare Alliance to include implementing the Veterans Choice Program. PC3 is a VA nationwide program to provide eligible Veterans access to certain medical care when the local VA medical facility cannot readily provide the care due to lack of an available specialist, long wait times, geographic inaccessibility, or other factors. PC3 has been the VA method of purchasing care in the community. The Veterans Choice Program supplements PC3 and allows coverage for more services for eligible Veterans and provides Veterans more flexibility in their choice to receive care in the community or through VA.

lively interest in me several months before there was any possibility of our becoming personally acquainted, first, that I was destined to be unlucky in life; and secondly, that I was privileged to see ghosts and spirits, both these gifts inevitably attaching, as they believed, to all unlucky infants of either gender born towards the small hours on a Friday night.

I need say nothing here on the first head, because nothing can show better than my history whether that prediction was verified or falsified by the result. On the second branch of the question, I will only remark that, unless I am through that part of my inheritance while I was still a baby, I have not come into it yet. But I do not at all complain of having been kept out of this property; and if anybody else should be in the present enjoyment of it, he is heartily welcome to keep it.

I was born with a caul, which was advertised for sale, in the newspapers, at the low price of fifteen guineas. Whether sea-going people were short of money about that time, or were short of faith and preferred cork jackets, I don't know; all I know is, that there was but one solitary bidding, and that was from an attorney connected with the bill-broking business, who offered two pounds in cash, and the balance in sherry, but declined to be guaranteed from drowning on any higher bargain. Consequently the advertisement was withdrawn at a dead loss--for as to sherry, my poor dear mother's own sherry was in the market then--and ten years afterwards, the caul was put up in a raffle

WHAT MUST I DO TO BE SAVED?

The Bible provides a clear answer. Here are the logical steps from God's Word, the Bible, that all must take to be saved.

Acknowledge Your Sin
"For all have sinned, and come short of the glory of God" (Romans 3:23)

First, see yourself for what you are – a sinner. Sin is tragic. It is vile. It blights, degrades, destroys. It has dire consequences. "The soul that sinneth, it shall die" (Ezekiel 18:4). "For the wages of sin is death, but the gift of God is eternal life through Jesus Christ our Lord" (Romans 6:23)

Repent of Your Sin
"Repent ye therefore, and be converted, that your sins may be blotted out" (Acts 3:19)

You must also repent. Repentance is not making a resolution to do better. It is not just conviction of sin, for a person may be convinced that he is wrong and still not repent. D. L. Moody liked to describe repentance this way: "Man is born with his back toward God. When he truly repents, he turns right around and faces God. Repentance is a change of mind, a change of heart, and it results in a change of action."

As the Bible says, "Let the wicked forsake his way, and the unrighteous man his thoughts: and let him return unto the Lord, ... for he will abundantly pardon" (Isaiah 55:7). You must change your mind about sin and want God to end its mastery over you. After all, sin is so bad it took Christ's death to make forgiveness possible for you.

Believe in Jesus Christ
"For God so loved the world, that he gave his only begotten Son, that whosoever believeth in him should not perish, but have everlasting life" (John 3:16).

Believe in the completed work Christ accomplished on the cross. You must believe that Christ substituted Himself for you, that He died for your sins (though *He* never sinned), and that He was resurrected from death. "The chastisement of our peace was upon him" (Isaiah 53:5). Our sins nailed Him to the cross, and "with his stripes we are healed" (Isaiah 53:5). "Believe on the Lord Jesus Christ, and thou shalt be saved" (Acts 16:31).

Make Your Decision
"If thou shalt confess with thy mouth the Lord Jesus, and shalt believe in thine heart that God hath raised him from the dead, thou shalt be saved" (Romans 10:9)

You must believe in Christ and receive Him personally into your life by faith if you are to be saved from the

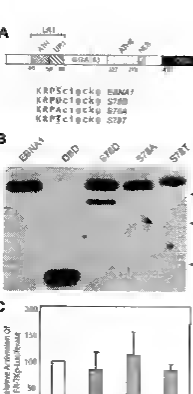

FIG. 3. Mutation of the conserved PKA recognition site in UR1 does not affect transactivation by pEBNA1. (A) The wild-type version of EBNA1 used in these studies contains five copies of the Gly-Gly-Ala repeat and is depicted schematically, indicating domains of EBNA1. The sequence of the conserved portion of UR1 is shown with serine 78 underscored in bold. The sequences of the S78D, S78A, and S78T substitution mutations constructed for this study are also shown with the substituted amino acids shown in bold. (B) Immunoblot of 3 × 10^5 C33a cells transfected with expression plasmids for EBNA1, D90, S78D, S78A, and S78T. Proteins were detected using the hu87.3 and 2B10 antibodies against the DMD of EBNA1 and were visualized by chemiluminescence. The migration of prestained markers of known molecular mass are indicated by the arrowheads. (C) C33a cells were transfected with an expression plasmid for EBNA1, S78D, S78A, or S78T along with an FR-Tkp-luciferase reporter. Assays for luciferase activity were performed at 48 h post transfection. The same EBNA1 transactivates FR-TKp-luciferase approximately 30-fold over the DMD alone, and this value was set to 100%. Data from three independent transfections maintain that replacing a conserved serine in UR1 with alanine, aspartic acid, or threonine does not significantly affect transactivation by pEBNA1 in positive comparison with EBNA1.

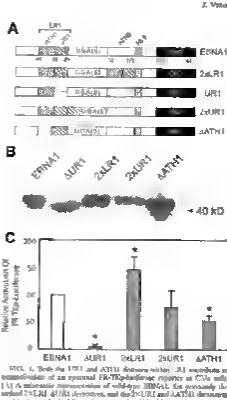

FIG. 4. Both the UR1 and ATH1 domains within LR1 contribute to transactivation of an upstream FR-TKp-luciferase reporter in C33a cells. (A) A schematic representation of wild-type pEBNA1 for purposes of defining 2xLR1 (LR1 duplicated), and the 2xUR1 and ΔATH1 derivatives used in this study. In LR1, residues in XP1 or XP2 of EBNA1 within a internal copy of an 81 to 86 aa IR1 or 71 to 88 aa duplicated 2× UR1 contains a internal copy of an 81 to 86 internal after UR1 within the OR sequence from aa 47 to 54 is deleted in ΔATH1. (B) Expression of wild-type EBNA1, ΔUR1, 2×LR1, 2×UR1, and ΔATH1 in transformed C33a cells. Proteins from 3 × 10^5 transformed cells were examined as described in the Materials and Methods section, and the migration of a prestained marker is indicated by the arrowheads. (C) C33a cells were transfected with an expression plasmid for EBNA1, ΔUR1, 2×LR1, 2×UR1, or ΔATH1 proteins along with an FR-TKp-luciferase reporter and assayed for luciferase activity as in panel B, above. At this time, EBNA1 transactivates FR-TKp-luciferase approximately 30-fold over the DMD alone, and the value was set to 100%. In these independent transfections, ΔUR1 was observed to transactivate the reporter at greater levels than wild-type EBNA1 while ΔUR1 was compared to transactivate. Transactivation by 2xUR1 could not be distinguished from wild-type EBNA1. ΔATH1 transactivated the reporter approximately 50% as well as wild-type EBNA1. Transactivation that differs significantly from that observed with wild-type EBNA1 ($P < 0.05$) is indicated by the asterisk.

containing two copies of UR1 and two copies of the AT-hook motif within LR1 (A1B1), which closely resembles the AT hook present in architectural transcription factors such as HMG1a/1b [37, 38]. The derivatives of EBNA1 shown in Fig. 4A were constructed to determine the contributions of UR1

3. Total premiums
Your financial representative will help ensure that the total amount for all of your life insurance premium payments fits within your budget

4. Financing new contracts with existing contracts
If you choose to finance a new contract using funds from an existing contract we will review the suitability of this option to ensure this is the right decision for your situation.

5. Total replacement of permanent life insurance
Generally it is not in your best interest to replace an existing contract in favor of a new contract. A contract you've had in force for a period of time has certain advantages. Your premium may be lower than what similar coverage today would cost, and any surrender charge periods may be over. Options also may be available on your existing contract that are not included in the new contract. If a new contract requires a premium rating—and subsequently a higher premium—because of your present health, the costs for a new contract may outweigh any benefits.

6. Multiple contracts on the same life
Generally it is not in your best interest to purchase multiple contracts of the same type and at the same time on the same life when one larger contract is available. You often pay increased costs for multiple insurance contracts. Keep in mind that you may have an option to increase your coverage on an existing contract.

7. Funding levels for flexible premium life insurance plans
The premiums you pay for flexible premium contracts (such as universal life and variable universal life) should be adequate to meet your needs and expectations for the coverage. It is important that you understand how long the insurance coverage will continue if premiums are regularly paid at the premium level chosen and how your contract would be affected if premiums were reduced or stopped.

8. Rated contracts
When considering life insurance coverage at older ages, particularly when a premium rating would be applied (resulting in higher premiums because of health issues), it may not be in your best interest to purchase life insurance unless special circumstances exist. If you proceed with purchasing the coverage, be sure to understand the impact a rating will have on the cost of the contract over time.

Advisory Process

The [redacted] Advisory Process, along with these standards and the guidance of your financial representative, should be used to determine which types of life insurance may be suitable for you.

Our Greatest Fear

"Our deepest fear is not that we are inadequate. Our deepest fear is that we are powerful beyond measure.
It is our light, not our darkness, that most frightens us. We ask ourselves, who am I to be brilliant, gorgeous, talented and fabulous"

Actually, who are you not to be"

You are a child of god. Your playing small doesn't serve the world. There's nothing enlightened about shrinking so that other people won't feel insecure around you.

We were born to make and manifest the glory of god that is within us. It's not just in some of us, it's in everyone. And as we let our own light shine, we unconsciously give other people permission to do the same. As we are liberated from our own fear, our presence automatically liberates others."

Binary Code Extraction and Interface Identification for Security Applications

Juan Caballero[1] Noah M. Johnson[2] Stephen McCamant[1] Dawn Song[1]
[1]UC Berkeley [2]Carnegie Mellon University

Abstract

Many code reuse scenarios require the extraction of individual functions from existing binaries. Unfortunately, current binary code extraction techniques are often unsuitable for such scenarios because they rely on heuristics that can produce incomplete results. Recovering exact results requires knowledge of the interface of the extracted code, including the number of parameters and whether they are pointers. This paper presents techniques for automatically identifying function interfaces in stripped binaries. Our approach is based on dynamic analysis of how the code uses its inputs, and can be applied to code that has been extracted from its original context. We have implemented our techniques in a tool called Howard, and evaluated it on a set of 52 functions extracted from 18 real-world binaries. Howard correctly identified the interfaces of 49 of the functions, and was mostly accurate for the remaining three. We also present two applications of Howard: detecting malicious input formats in network protocol analyzers, and automatically generating unpackers for arbitrary packed executables.

1 Introduction

Often in security analysis we want to reuse a piece of existing functionality. For example, when we call a function to parse a file format, we rely on the parser to correctly interpret the file's contents. Reusing existing code is attractive because it can save substantial effort compared to writing new code. However, reusing code can be difficult if the code is not designed to be reusable. For example, it may be tightly integrated with the rest of the program, or it may have complex requirements for its environment. Many of these problems are exacerbated when the code is only available in binary form, as is typically the case for malware and commercial software.

This paper studies techniques for reusing code in binary form. We focus on a scenario in which we have identified a piece of code we want to reuse, and we have extracted it from its original program. Our goal is to automatically recover enough information about the code's interface that we can safely call it from other code. Recovering exact results requires knowledge of the interface of the extracted code, including the number of parameters and whether they are pointers. We present techniques for automatically identifying function interfaces in stripped binaries. Other reuse scenarios require more than just a function's interface. For example, when we call a function to parse a file format, we rely on the parser to correctly interpret the file's contents. Introduction

This document will assist you in testing your HP Fax machine using the HP Fax Test Service. Print this document for easy reference by following the **Printable Version** link in the upper right corner of this page.

Test your fax machine

To test the capability of your fax machine, follow the directions below.

NOTE: Be sure that your phone or other connected Caller ID blocker (typed by your telephone company) prior to attempting to send and receive a fax. Beginning: Before dialing, verify that you hear a dial tone on the Caller ID blocking feature to avoid errors. Other phone compatibility issues may prevent you from sending or receiving faxes, including cordless phones, cell blocking, and phone voicemail.

NOTE: When you are troubleshooting a fax error, it is good practice to test the telephone line dynamic prior to **Every Error** before attempting a test fax. In many cases, you will be able to identify and resolve the error without the need to call HP. If you are unable to resolve the error after following the troubleshooting steps provided, contact HP for additional assistance. Different products, contact the product owner's manual for specific steps.

1. Send a one page black and white test fax to **1-888-Hp-Fax-Test** (1-888-473-2938).
2. When your fax is received by the HP Fax Test Service, it will generate a report that tells you whether the test was successful or if there was a problem. This report tells you if both send and receive a fax with your fax model #.

If you do not receive a return fax within 5-7 minutes, there may be a problem. Review the setup of your fax machine. Consult the user manual that came with the product for proper setup and configuration.

Be sure that you are using the correct phone cord that came with the fax machine. Be sure that the fax number set in the Fax Header on the machine does not match the number of the phone line connected to the fax. Also, ensure that the Fax Header setting. Default 10 digit telephone number of the fax machine, including the area code.

Ten things we know to be true

"The perfect search engine," says co-founder Larry Page, "would understand exactly what you mean and give back exactly what you want." When Google began, you would have been pleasantly surprised to enter a search query and immediately find the right answer. Google became successful precisely because we were better and faster at finding the right answer than other search engines at the time.

But technology has come a long way since then, and the face of the web has changed. Recognizing that search is a problem that will never be solved, we continue to push the limits of existing technology to provide a fast, accurate and easy-to-use service that anyone seeking information can access, whether they're at a desk in Boston or on a phone in Bangkok. We've also taken the lessons we've learned from search to tackle even more challenges.

As we keep looking towards the future, these core principles guide our actions.

> We first wrote these "10 things" several years ago. From time to time we revisit this list to see if it still holds true. We hope it does—and you can hold us to that. (September 2009)

1. **Focus on the user and all else will follow.**
   Since the beginning, we've focused on providing the best user experience possible. Whether we're designing a new Internet browser or a new tweak to the look of the homepage, we take great care to ensure that they will ultimately serve **you**, rather than our own internal goal or bottom line. Our homepage interface is clear and simple, and pages load instantly. Placement in search results is never sold to anyone, and advertising is not only clearly marked as such, it offers relevant content and is not distracting. And when we build new tools and applications, we believe they should work so well you don't have to consider how they might have been designed differently.

2. **It's best to do one thing really, really well.**
   We do search. With one of the world's largest research groups focused exclusively on solving search problems, we know what we do well, and how we could do it better. Through continued iteration on difficult problems, we've been able to solve complex issues and provide continuous improvements to a service that already makes finding information a fast and seamless experience for millions of people. Our dedication to improving search helps us

Parents,

Easter is just around the corner, on Sunday April 16th 2017!!
Please remember that we will be **Closed on Good Friday, April 14th**. We will resume school as normal on Monday, April 17th. Mark your calendars!

Here at Legacy, we believe in celebrating the resurrection of Jesus Christ. The kids are experiencing a hands-on approach to learning about Easter. The Resurrection Eggs are a tool that we use to help the kids understand all that Christ has done for us. The children will learn how Jesus entered Jerusalem and was praised, how He ate The Last Supper with the Disciples, and how one disciple was very mean and betrayed Jesus. Then we teach them how Jesus willingly took our place and paid for ALL sin by dying on the cross because He loves us so much, and lastly, but best of all, how after He died, He came back to life, and now lives inside of each of us when we choose to believe in Him. This is the gospel and this is the way that God extended grace to us to win our hearts and give us opportunity to have relationship with Him and spend eternity in heaven by His side.

Also, very exciting, Thursday, April 13th, we will have our annual Easter egg hunt and Resurrection party. Please make sure your child is at school on time so they don't miss out on any of the fun. They need to bring an Easter basket to collect their eggs. Please make sure their basket is labeled clearly with their first and last name. We are also asking that each family bring **at least one dozen plastic eggs and one bag of candy/fruit snacks/stickers** so we can fill the eggs. Please make sure you bring age-appropriate items that will fit into a plastic Easter egg. Also, families can bring in **pre-filled candy eggs** but **(No hard candies or candies containing nuts)**. The **candy** and **baskets** should be in no later than (Tuesday, April 11th).

We hope this Easter season Blesses you and your family immensely!!

Thank you so much,
-Legacy Staff

DINO TIC-TAC-TOE

The object of Tic Tac Toe is to get three in a row. You play on a three by three game board. The first player is known as X and the second is O. Players alternate placing Xs and Os on the game board until either opponent has three in a row or all nine squares are filled. X always goes first, and in the event that no one has three in a row, the stalemate is called a cat game.

Hello

JFK
MEDICAL
CENTER

Your Hospital Your Health.

To All JFK Employees

I often find it very interesting when I talk with JFK employees about how they entered the healthcare profession. Many were clear about a career in healthcare from a relatively early point in their education. Others discovered that there were good opportunities to work in the helping professions after looking at other career fields. And, some found themselves in this field as a result of unexpected directions their career has taken.

No matter how we all came to this profession, there is one common bond we all share... Our work is about helping people at a time when they need some level of support with health and wellness. Our job every day is to help people through diagnosis and recovery from illness or injury, and to comfort people who may have a chronic or even terminal illness.

In our recent presentation I have talked about a theme that guides us in our work – Don't harm me. Heal me, and Be nice to me. This set of phrases focuses our attention on quality, safety and the patient experience, respectively. We are all working hard to perform at top levels in all these dimensions of our work. And we need to do the right things every day to sustain peak performance.

One of the important things to do in the "Don't harm me" dimension is quite easy to accomplish – protect people from Influenza through annual immunization.

Over the past few years we have placed increasing attention on this one preventive approach to keeping our patients (and co-workers) protected from this debilitating and potentially fatal illness that people can contract if we are not diligent in our commitment to protect them.

This up-coming Flu season we will place more emphasis than ever on taking all the measures needed to protect everyone in our hospital environment from acquiring Influenza.

I am asking every employee to read and fully comply with our latest policy on Influenza prevention, which outlines our new mandatory requirements for Influenza immunization. We are a highly rated stand alone medical center and we want to continue on our quest to be among the best in the nation. This Influenza policy is one of the important ways we will achieve that goal. It is the right thing to do for our patients and for each other. Join me in fully complying with these requirements and help assure that we will not be doing harm to our patients (and each other) – harm that can be readily avoided through what is clearly a "best practice" in the area of infection control.

Thank you

William Ouel MD
Sr. Vice President
Medical Affairs

How Can I Test My Fax Machine?

I just hooked up a new fax machine and I'd like to test it. Just to make sure it works. How can I do that?

Presumably you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both.

To test the send functionality of your fax machine, send a one page fax to 1-855-330-1239 (a toll free number in the United States) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero; this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

THIS IS A TEST

This is a test to check for the ability of my computer fax program to accurately send information and for it to be received

Let's see how well it does with different font both style and size. Let's also see if formatting comes over appropriately

This is a test also

And this,

And this too

Testing, testing, testing, is what they say at a microphone. I'm is a test too.

Let's see if paragraphs format properly as well as repeated numbers, and bold and non-bold

I think this is the font that I use mostly. When people would type on a typewriter in a store they would often write "now is the time for all good men to come to the aid of their country." I think now is a better time than ever for us to do that

How Can I Test My Fax Machine?

I just hooked up a new fax machine and I'd like to test it just to make sure it works. How can I do that?

Presumably you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both:

To test the send functionality of your fax machine, send a one-page fax to 1-855-339-1239 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero; this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully it will automatically answer and spit out the test fax.

INTEREST RATES

All of these changes are taking place in an environment that is still feeling the effects of the 2008 recession. 2016 ended with the Fed raising rates for first time in a decade. While the Fed has indicated that there will be a number of measured interest rate increases over the next two years, they will not allow monetary policy to run on autopilot. The Fed will likely show restraint and wait for policies to unfold to determine if these increases need to be modulated. Any increase in rates will have implications for income producing investments – not only for traditional fixed income like bonds and preferred stocks, but also for dividend yielding common stocks that in recent years gained popularity. On a positive note cash and money market funds are likely to once again generate income.

US EQUITY INVESTMENTS

President Trump promised to be a disruptive force to instigate change. So far his cabinet selections, initial policy proposals and executive orders suggest that he is following through with that promise. Whether we agree or disagree with many of these changes, we look at disruption as opportunity for well run companies with adaptive management teams to excel. We also believe that during this disruptive period, fundamental analysis of individual companies will prove more productive than blind adherence to a passive index investment strategy.

Manufacturing

During the election, Trump talked tough on trade, especially the TPP and NAFTA. On the first day of his administration, he pulled out of the TPP. He has already threatened tariffs on Mexican imports. The administration is likely to introduce other regulations, tariffs and taxes to re-shore jobs and favor American made products. This will alter the strategic plans of U.S. companies that have invested in manufacturing facilities abroad and the many other companies that rely on lower cost goods produced abroad. We anticipate that a protectionist policy will have a significant impact on a great number of U.S. companies.

Construction and Infrastructure

President Trump campaigned on a platform to invest in large infrastructure projects through public private partnerships ("PPPs"). The problem with these ventures is that the interests of the parties are often at odds. History is littered with failed PPPs such as underutilized toll roads and there are few turnkey projects with ready partners. It is likely that some projects will proceed and be completed with domestic materials and equipment. We will monitor developments and are familiar with several companies that would benefit from an increase in infrastructure spending.

Oil & Gas, Renewable Energy

The President has made no secret of his natural resources agenda. He has already removed hurdles for new pipelines and will likely open more land to drilling for fossil fuels; this could boost the bottom line of those in the oil and gas industry. But fossil fuel prices are determined by supply and demand. The same liberal policies increasing supply could lead to a drop in prices, ultimately limiting the benefits enjoyed by oil and gas companies.

But these policy changes will likely hurt companies in the renewable energy business. Commercial capacity will only be built and operated if it is cost effective when compared to other forms of energy. Therefore a drop in fossil fuel prices and the removal of government subsidies will limit expansion of renewable energy capacity.

Banking

Much of the banking regulation in response to the recent financial crisis is contained in Dodd Frank. The most regulation, it is imperfect and reactionary. This does not mean that the bill should be repealed; in fact, repeal of the entire bill is unlikely. Tony Fratto, a former Treasury and White House Official in the George W. Bush administration and a host in the *New York Times* on January 14, 2015 "The hyperbole on banking reform might score political points, but the reality is the core of Dodd-Frank is going nowhere." Until the rhetoric is replaced by a definitive policy trying to bandcamp the impact on financial stocks is a fool's errand.

Pharmaceuticals

Many thought that the new President would be a savior for the drug companies – their recent experiences with the government were less than friendly. However, it is difficult to determine the impact his ident would have. He has suggested speeding up the drug approval process, implementing competitive bidding and forcing foreign governments to eliminate price controls so that their countries contribute more towards drug development. With several investments in the pharmaceutical industry we are closely monitoring any policy pronouncements.

CONCLUSION

As we make investment decisions, we will pay close attention to policy details as they emerge. After all there is often a significant difference between campaign rhetoric and actual policy. We want to remind you that these policy changes especially ones involving Federal Tax Policy, Estate Planning and Health Care may have significant planning implications for you and your family. We encourage you to discuss these matters with your accountants, lawyers or other estate planning advisors.

The high stress she is Richard's failing financial and marital situation led to a diagnosis of Mixed Anxiety Depressive Disorder and a recommendation to remain off work until his associated symptoms had subsided. Together with the mothers in my Moms In Prayer group, we cried out for my son's life. God gave me the resolve to be unshaken even in the midst of the crushing pain I felt as parent. Today my son is no longer addicted, he has a church home, a good job and a sweet fiancée. I know that God answers the cries of our hearts." —*A Praying Mom in Texas*

Families have pledged $307,500 in matching funds toward our year-end campaign goal of **$700,000.**

Will you help support this ministry by giving now? Our current project needs are:

- **$12,000** to fund **Booklet** translation projects which include Hebrew and Punjabi.
- **$25,000** to develop a new group locator and database so more moms will easily find a local Moms In Prayer group.

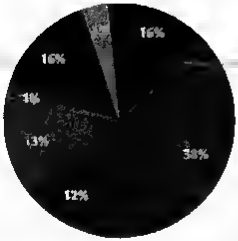
A gift large or small makes an impact

- If **2,375** women gave **$100**, they would fund local outreach and leadership training, as well as provide resources for our growing prison and military ministries.
- If **1,125** women gave **$500**, more moms would learn about groups because our goal for outreach and networking would be met.
- If **100** women gave **$2,000**, they would grow groups WORLDWIDE by funding global programs.

To donate online, visit **MomsInPrayer.org/give.**
To donate via text, text **41444** and type **Faithful** in the message box.

2016-2017 Moms In Prayer Fund Facts

80% of each dollar donated is spent directly on program costs. Total annual budget = **$1,493,197**



16%	State and Regional Leadership Expenses
38%	Outreach/Networking
12%	Technology/Group Connections
13%	International Training/Outreach
1%	Translations/International Outreach Packets
16%	Administration
4%	Fundraising

We pray God's blessings on you and your family. Thank you from Moms in Prayer!

Dear Santa,

You must be surprised that I'm writing to you today, the 26th of December. Well, I would very much like to clear up certain things that have occurred since the beginning of the month, when, filled with illusion, I wrote you my letter I asked for a bicycle, an electric train set, a pair of roller blades, and a football uniform. I destroyed my brain studying the whole year. Not only was I the first in my class, but I had the best grades in the whole school. I'm not going to lie to you, there was no one in my entire neighborhood that behaved better than me, with my parents, my brothers, my friends, and with my neighbors. I would go on errands, and even help the elderly cross the street. There was virtually nothing within reach that I would not do for humanity. What balls you have leaving me a fucking yayo, a lame whistle and a pair of ugly socks. What the fuck were you thinking, you fat prick, that you've taken me for a sucker the whole fucking year to come out with some shit like this under the tree. As if you hadn't fucked me enough, you gave that little puff across the street so many toys that he can't even walk into his house. Don't let me see you trying to fit your big fat ass down my chimney next year. I'll fuck you up. I'll throw rocks at those stupid reindeer and scare them away so you'll have to walk back to the fucking North Pole, just like what I have to do now since you didn't get me that fucking bike. FUCK YOU SANTA. Next year you'll find out how bad I can be, you FAT COCKSUCKER.

Sincerely,

Little Johnny

Selection Control

It is common that you will need to make a decision about some condition of your program's data to determine whether certain statements should be executed. For example, if you were calculating the slope of a line using the assignment statement, `slope = dy / dx` then you need to make sure that the value of `dx` is not zero (because division by zero is mathematically undefined and will produce a run time error). Therefore, the decision you would need to make is, "Is `dx` zero?

A selection control statement allows you to make "decisions" in your code about the current

The unanimous Declaration of the thirteen united States of America

When in the Course of human events, it becomes necessary for one people to dissolve the political bands which have connected them with another, and to assume among the powers of the earth, the separate and equal station to which the Laws of Nature & of Nature's God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation.

Limit Your Exposure To

Cell Phone Radiation

Four billion people around the globe own cell phones. As the market for new devices has grown so have concerns about the safety of cell phone radiation.

Recent studies find a significantly higher risks for brain and salivary gland tumors among people who have used cell phones for 10 years or longer. The state of the science is provocative and troubling, and much more research is essential.

We at Environmental Working Group are still using our cell phones, but we also believe that until scientists know much more about cell phone radiation, it's smart for consumers to buy phones with the lowest emissions.

The U.S. government ought to require cell phone companies to label their products' radiation output so that consumers can compare the numbers at the point of sale.

It doesn't, so EWG has created this user-friendly interactive online guide to cell phone emissions, covering more than 1,000 phones currently on the market.

Dr. P.N. Cundall,

Dear Pete,

Permit me to introduce you to the facility of facsimile transmission.

In facsimile a photocell is caused to perform a raster scan over the subject copy. The variations of print density on the document cause the photocell to generate an analogous electrical video signal. This signal is used to modulate a carrier, which is transmitted to a remote destination over a radio or cable communications link.

At the remote terminal, demodulation reconstructs the video signal, which is used to modulate the density of print produced by a printing device. This device is scanning in a raster scan synchronised with that at the transmitting terminal. As a result, a facsimile copy of the subject document is produced.

Probably you have uses for this facility in your organisation.

Yours sincerely,

Phil.

Prayer to St. Joseph over 1900 years old

O St Joseph whose protection is so great, so strong, so prompt before the Throne of God, I place n you all my interests and desires O St Joseph do assist me by your powerful Intercession and obtain for me from your Divine Son all spiritual blessings through Jesus Christ. Our Lord, so that having engaged here below your Heavenly power I may offer my Thanksgiving and Homage to the most Loving of Fathers O St Joseph I never weary contemplating you and Jesus asleep in your arms I dare not approach while He reposes near your heart Press him in my name and kiss His fine Head for me, and ask Him to return the Kiss when I draw my dying breath. St. Joseph, Patron of departing souls, pray for us. Amen

Say for nine consecutive mornings for anything you may desire. It has seldom been known

to fail.

This prayer was found in the fiftieth year of Our Lord Jesus Christ. In 1500 s it was sent by the Pope to Emperor Charles when he was going into battle

Whoever reads this prayer or bears it or carries it, will never die a sudden death, nor be drowned, nor will poison take effect on them They will not fall into the hands of the enemy nor be burned in any fire, nor will they be defeated in battle.

Make this prayer known everywhere

Imprimatur

reversed by this Court absent an abuse of discretion Cooper v Reames (1988) 232 Mont. 148, 756 P.2d 1125 This Court has previously held that when a party rests their case they voluntarily lose the right to introduce any further evidence, except rebuttal Haass v Pintersen (1948) 122 Mont 394, 204 P.2d 1040 In this instance, the District Court abused its discretion by allowing into evidence defendant's Exhibit F However, in order for error to be the basis for a new trial it must be so significant as to materially affect the substantial rights of the complaining party Rule 61 M R.Civ P. Zokes Distributing Co v Brown Forman Corp (1989) 239 Mont 272, 779 P.2d 908 In this instance, the report was merely cumulative of other evidence presented to the jury and was not prejudicial to appellant. The admission of the report was harmless error and therefore does not warrant a reversal

III

Should the District Court have granted a default judgment against Haugen's Inc ?

At the conclusion of trial appellant moved for a default judgment against Haugen's, Inc. concerning the excess proceeds remaining after the repossession and sale of appellant s equipment The District Court decided that since appellant had only recently received an accounting and because issues not raised at trial might be involved a separate proceeding would be needed concerning the excess proceeds The District Court's decision was clearly within its discretion

Affirmed.

Why can't I upload drivers to my Samba print server?

1 Answer

I know this is a late reply, but I just experienced this same problem. I identified the problem, and found a solution. The issue is that the Kyocera drivers .inf files are formatted incorrectly for Samba.

When you download the drivers and look in the folders you will find the "Tasksetup.inf" file (which you probably selected when trying to upload the driver in the printS share through print management or print server properties dialog). It varies but you will most likely see instructions for installing drivers for NTx86.6.1, NTx86.6.0, NTamd64.6.1, NTamd64.6.0 (and so which I assume is for Itanium). The "6.1 & 6.0" part is what causes Samba problems. Here is what I did to solve it:

1. Open the positions.inf file in text editor
2. Remove the NTx... = positions from [Manufacturer]; section.
3. Replace it with just x86=x86 and x64=x64

   So this.

   ```
   [Manufacturer]
   Kyocera Mita=Kyocera,NTx86.6.1,NTx86.6.0,NTamd64.6.1,NTamd64.6.0
   ```

   becomes

   ```
   [Manufacturer]
   Kyocera Mita=Kyocera,NTx86=x86,NTamd64=x64
   ```

4. Find the select Sections right below this and you should see groups labeled like, [Kyocera.NTx86.6.1] and [Kyocera.NTx86.6.0] and so on
5. Just delete the select.Install sections for anything with a .6.1 in it.
6. The sections that have .6.0 in there should remain like .6.0 so that instead of [Kyocera.NTx86.6.0] it reads [Kyocera.NTx86]
7. Save the file (in the original directory)
8. Go back to print management, and driver, select the x64 and x86 select select have disk, select newly saved .inf file. (Note that it means you have to have both x64/x86 drivers to actually select the driver in the printers properties)
9. You should now see the list of print drivers and you should be able to click through and select them.

Note that because you are editing the .inf file the digital signature will no longer be valid so you will get some warnings. Obviously there we made the changes I wasn't do concerned about there I also assume that if you needed to install the 6.1 versions then you could follow the same instructions, but instead of removing the .6.1 select sections you would change those to just read NTx86 and NTx64. (and instead select the .6.0 sections). I don't need to do this however as I didn't see it. Also: I'm pretty sure there are other sections of the file that don't get used because of the changes I made and could also be deleted (like the section commented as "Install Section for NTx86.6 (XP)"), but I didn't bother trying to "minimize" the file once I determined the cause of the problem and got the drivers working.

I don't have reputation so can't post pictures for you.

are probably not under near-term
threat, the Constitution is no longer
interpreted by courts to give people of faith, as well as the
schools and service ministries we form, the protection we need
in order to fully live out the implications of our most cherished
beliefs. Meanwhile state courts, legislatures, and city councils
around the country have moved to further narrow the protec-
tions granted for religious liberty, as their citizens must choose
between adherence to religious faith and full participation in
the public square.

The threats to religious freedom that are now upon us can be
likened to the frog put into a pan of water placed on the stove.
The water warms gradually and the frog does not realize its
peril until it is too late to jump out of the pan.

Many evangelical and Pentecostal believers and leaders have
not been previously alarmed at how the "pan" has been gradu-
ally heated in the assault against religious liberty. For example,
in our own Fellowship I and district offices contacted nearly two
thousand credentialed ministers to support a religious freedom
bill just a month ago that was before a committee in the Missouri
House of Representatives. Less than 15 percent of them even
bothered to respond. The bill failed in committee and significant
religious liberty protections were lost. We are like the situation
described by Jesus in the parable of the weeds and the wheat.
"But while everyone was sleeping, his enemy came and sowed
weeds among the wheat" (Matthew 13:25). We have largely been
sleeping. Have we awakened too late?

I trust not.

Mike Beale, stated: "This means that
religion-based aspects of religious ori-
ented services, spiritual formation activities and faith and cur
riculum, as well as requiring a statement of faith for admission
and requiring ministry-based service experiences would be
at risk if Senate Bill 1146 is passed as is." The bill is an enor-
mous and all-out assault on our religious distinctives.

As I write the bill is under consideration by a House com-
mittee. The fact that it passed the state Senate and is under
consideration by the state House should ring a too-alarm bell.
If the attempt to gut religious liberty for colleges and univer-
sities is successful in California, you can be sure other dome-
nos will fall in California and across the country.

The secularists in our society seek to redefine the First Amend-
ment protection of the "free exercise" of religion as a mere
right of worship. In other words, their view is: "If you are going
to be bigoted in you, pro-life views or your view that marriage
is between a man and a woman and that fornication (both het
erosexual and homosexual) is morally wrong—then you must
confine your views within the four walls of your sanctuary. But
don't bring your bigotry into the public square." A society that
adopts such a view may be setting the stage for a future day
when even a defense of biblical teaching on human sexuality
from the pulpit will bring with it the risk of punishment by the
government such as in the loss of our long held tax-exempt
status without which many ministries would not survive.

At a recent meeting I attended in Washington, DC that

GOOD MORNING CLERKS!

Today we are mailing your packets with information and forms for the upcoming filing period (June 4 13). Please review the contents and if you have any questions give us a call. 1-800-562-4300

Also in the packet is your ABSENTEE ENVELOPE SUPPLY FORM. No new forms have been enacted by the legislature (yet!), so, at this time, the supply form is only for your absentee envelopes.

PLEASE NOTE: NEW this year....On the last day of the filing period (June 13th) you can ONLY accept filings that are filed *in person* by the candidate. You cannot accept filings received in the mail nor can you accept filings brought in by a representative. RSA 655:16. And remember, you must be available for filings between 3 p.m. and 5 p.m. (at least) on the last day – even if you are not usually open on that day. RSA 652:20

Thank you and have a great day! Karen

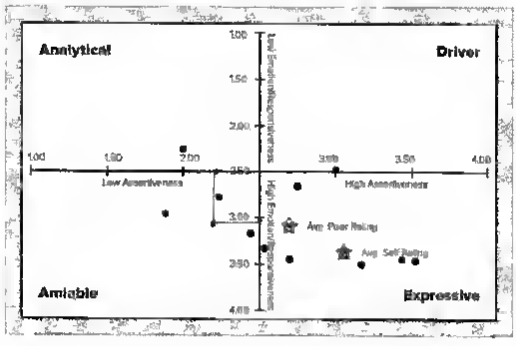
Once you average the results, you would plot them on the graph as seen below. As it is shown in the graph there are four distinct styles (http://www.pncwa.org/assets/Committees/PubEdi/2011Workshop/martha%20tuttle.pdf): driver, analytical expressive, and amiable. Each communication style is different, and most people fall into one of the four categories according to the responses they gather. Sometimes people have a combination of different styles. For example, my chart shows that I'm mostly expressive but a little amiable as well.



How to Identify Different Communication Styles

Once you've tabulated the scores and see the quadrant where majority of your data points lie, cross-reference the below list to gather insight into your corresponding communication styles:

HP Fax Products - Testing Your HP Fax Machine with the HP Fax Test Service

Introduction

This document will assist you in testing your HP Fax machine using the **HP** Fax Test Service

Print this document for easy reference by clicking the **Printable Version** link in the upper right corner of this page

Test your fax machine

To test the capability of your fax machine, follow the directions below

NOTE:

Be sure that your phone number is not Caller ID blocked by your telephone company prior to attempting to send and receive a fax. Pressing *82 before dialing the toll free number will unblock the Caller ID blocking feature in most areas. Other phone company services can prevent you from receiving a fax, including voice mail, call blocking, or call privacy features.

NOTE:

Whenever troubleshooting a fax issue, it is good practice to set the ***Automatic Reports*** option to **Every Error** before attempting a test fax. This way, even if the sent fax fails, an error code will be generated that will guide you in future troubleshooting. This option is available in different places on different products, consult the product *User's Guide* for specific steps.

1. Send a one page black and white test fax to **1-888-hpfaxme** (1 888 473 2963)
2. When your fax is received by the HP Test Fax Service, we will generate a return fax to you within five

- **What am I looking for in a paper? I will grade based on content, organization, readability and grammatical correctness.**
  - **Content** includes your ideas as well as your research
  - **Organization** includes external transitions (section to section) and internal transitions (paragraph to paragraph and sentence to sentence)
  - **Readability** means how well the paper flows. Avoid wordiness and the passive voice. Don't start your sentences with "it is" or "there are."
  - **Grammatical correctness** includes spelling and other grammar errors including subject-verb agreement. After you write your paper, leave it in a drawer for a day then read each word out loud. You will find most of your errors. Please write your paper in third person. You should always avoid using personal pronouns such as you and I in a researched paper. To state your opinion, you could use a phrase like "the author posits."
- Basically, write five to seven pages about a topic you are interested in. Edit your finished draft at least twice (once for organization and once for grammar mistakes). Your paper should include an outline, five to seven edited pages with parenthetical references or footnotes, and a list of your sources (a works cited page or a bibliography). Your paper should be **double spaced** and Times New Roman 12 point font with 1 inch margins.

Research and Documentation

Sources

At least seven references are required for the paper. Please use at least one **internet source** and one **hardcopy source** (a book or journal article, for example) in your paper. I recommend going to a library and researching your topic there. I also strongly recommend that you use the Wall Street Journal as a reference. Find several books on your topic. You also have access to the Park Virtual Library (located in the Webliography under "other resources"). (Students deployed to remote locations like Iraq are not required to use a hardcopy source as they are not able to go to the library. Please note that you are in Iraq, Korea, etc. in your bibliography so I won't count off points.)

What is APA Style?

For writing tips and information on the APA style, try the **Writing Resources category** in the **Webliography**.

Plagiarism

Do not plagiarize (copying or using the work of others without giving them credit). Use parenthetical references (APA style) within your paper to document all quotations, minor details (for example, statistics), and opinions that are not yours. However, do not document your own opinions. In the past, several students have copied their entire papers from the Internet. These students received a 0 on the assignment and were reported to the Academic Director.

Avoid long quotations. If you're going to quote from a source verbatim, limit that to 10% of the paper (about ½ of a page if the body of the paper is five pages). Longer quotes can be placed in an appendix at the end of the paper. The appendix would not count as part of the body of the paper.

How do I document sources from the Internet?

See the Webliography category "Writing Resources" to find information about citing web sources.

Warning: Any paper submitted without documentation will receive a grade of zero

St. Thomas More Catholic Newman Center
PARKING PERMIT POLICY
(Revised March 2005)

The Newman Center is a community of worship and ministry. Every function of the Newman Center springs forth from and nourishes the growth of that reality. That we provide parking permits during the school week cannot be divorced from Newman as a worshipping and ministering community. As such, Newman provides parking permits as an outreach to community members. Having a parking permit at the Newman Center is both an incentive to and reward for participating in the life of the Church. To obtain a parking permit, one must meet the following criteria:

A UofA student or faculty/staff who is a registered member, who attends worship at Newman and/or is engaged in ministry at the Newman Center

The fee for a 2011—2012 yearly parking permit is $270

There will be no special status granted to people who've had a permit in the past

A Newman Center Parking Permit grants the right to park in an open space in a Newman Center lot from 7 AM to 5 PM Monday through Friday ONLY. Outside these hours you may only park in a Newman lot if attending a Newman function. **NO OVERNIGHT PARKING!** Permits do not guarantee the availability of a space. If there are no available spaces, the Newman Center staff is not responsible to find or create a parking space. Under no circumstances does a parking permit allow parking in a space marked "tenant parking only" or "staff parking". Cars illegally parked are subject to towing or fine. Newman provides 15 more permits than we have spaces (45 spaces/60 permits).

Newman Permits are non-transferable and must be clearly visible hanging from the rearview mirror when the registered vehicle is parked during the above stated times.

* "registered members" are those who registered, independently of the parking permit application. Registration in the Newman Community is expected of all students, UofA faculty/staff, and others who treat the Newman Center as their normal parish community.

** "ENGAGED IN MINISTRY" means participates in the life of the community by taking part in a liturgical ministry (Lector, Eucharistic Minister, choir, art and environment, liturgical dance), campus ministry (Newman Nights, Student Leadership Team, Retreats), social justice outreach ministries, or other ministries or groups sponsored by the Newman Community and/or supports the Newman Center's ministries by regular financial contributions.

DARK CHERRY STOUT

[illegible]

Your Dark Cherry Stout is a delicious, dark, and rich beer with a deep cherry flavor. It has a smooth, full-bodied taste with a hint of sweetness from the cherries. The beer is brewed using a traditional method, and it is aged in oak barrels for a period of time to allow the flavors to develop and mature. The result is a beer that is both complex and easy to drink.

CancerTYPE ID — Molecular Classification with CancerTYPE ID

FFPE Tissue Processing & Tumor Enrichment

- CancerTYPE ID requires as few as 300-500 viable tumor cells and is compatible with limited biopsy specimens such as FNAs, cytological specimens, and small core needle biopsies.
- CancerTYPE ID routinely employs laser guided microdissection to enrich for tumor specimen.

Gene Expression Profiling

- CancerTYPE ID uses a robust real-time RT-PCR platform to detect very small differences in gene expression.
- CancerTYPE ID measures and integrates the gene expression of 92 genes, 5 normalization genes and 87 lineage determinant and tissue-specific genes, most of which are not routinely measured by IHC.

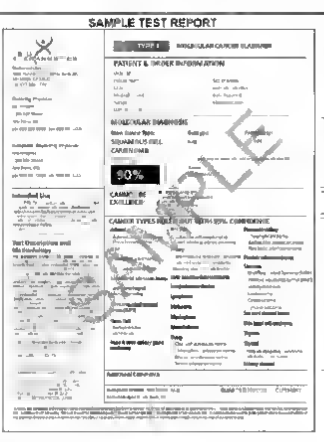
Reference Tumor Database & Algorithm

- CancerTYPE ID uses a computational algorithm to predict the patient's tumor type based on the degree of similarity of the sample's 92-gene expression profile to a reference database of gene expression profiles. The reference database contains gene expression information from over 2,000 tumor specimens of known histogenesis, and representing ~95% of all solid tumors based on incidence.
- The CancerTYPE ID algorithm provides a predicted main type and any sub-types in rank-order by relative probabilities, which are based on the tumor's gene expression similarity to tumors of these types in the reference database.

Molecular Classification

- CancerTYPE ID classifies 28 tumor types and 50 tumor subtypes.
- In an independent validation of 2998 blinded samples, the molecular diagnosis was 87% accurate for main tumor type and 86% accurate for tumor subtype.

SAMPLE TEST REPORT



Interpreting CancerTYPE ID Test Results

MOLECULAR DIAGNOSIS

The [redacted] molecular diagnosis is the CancerTYPE ID prediction of certain tumor subtypes. It is reported probability (≥ 80%), the tumor is reported as "Indeterminate", in this case, the test report will also indicate tumor types that can be ruled out (see below) that cannot be excluded.

CAN NOT BE EXCLUDED

When applicable, tumor types on the CancerTYPE ID reference database that share some gene expression profile similarity to the patient's sample such that they cannot be excluded. Item diagnostic consideration will be listed here in rank order.

RULE OUTS

The CancerTYPE ID test report also lists tumor types that can all be ruled out with 95% confidence. In an independent validation of 2998 blinded samples, the rule-outs were 95% accurate. This may provide useful differential diagnostic information when two or more potential tumor types are suspected and one or more tumors may be ruled out in the rule outs.

I am holding a Marrow Registry Drive as my Eagle Scout Project becausa this is tha second tima my sister has had cancer, I saw how much my sister relied on other people to survive. Giving her numerous bags of blood, thousands of platelets and now a bona marrow transplant. I was just thinking about how if no ona would have donatad thair blood then Michalla wouldn't have been abla to survive. So since so many genarous strangers would da that for my sister I wanted to da it for anyone else who is struggling thraugh tha sama problems sha is going through and halp them out by making a bona marrow transplant...a little aasier for people who are already going through a lot right now.

Subject Density Output C

BACK

At present, a request for density output cards on a densitometric computations run yields density cards corresponding to densitometer densities. If the test code used involves E.N.D. conversions, the density output cards must be run through a separate conversion program to correspond densities corresponding to individual strips are punched wh desired.

I prop If density card output is requested, plotted densities are punched out. In the normal case these would simply be the average densities If the test code calls for E.N.D. conversion, it would be the E.N.D. densities that are punched out If the test breaks down e.g. because of range check failure, we would get cards punched out for individual strips since individuals are plotted in that case

I would appreciate your comments on this proposal by January 2, 1971

How Can I Test My Fax Machine?

I just hooked up a new fax machine, and I'd like to test it just to make sure it works. How can I do that?

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both:

To test the send functionality of your fax machine, send a one page fax to 1-888-877-1655 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero; this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

Collection and Use of Personal Information

Sections 205(a), 223(d)(5)(A), 1631(d)(1), and 1631(e)(1) of the Social Security Act, as amended, authorize us to collect this information. We will use the information you provide to assist us in making a decision on your claim.

Furnishing us this information is voluntary. However, failing to provide us with all or part of the information could prevent us from making a decision on your claim.

We rarely use the information you supply for any purpose other than the reason stated above. However, we may use it for the administration and integrity of Social Security programs. We may also disclose information to another person or to another agency in accordance with approved routine uses, which include but are not limited to:

2. To facilitate statistical research, audit, or investigative activities necessary to ensure the integrity and improvement of our programs (e.g., to the Bureau of the Census and private entities under contract with us).

A list of when we may share your information with others, called routine uses, is available in our System of Records Notices entitled, Master Files of Social Security Number (SSN) Holders and SSN Applications System, 60-0058; Claims Folders System, 60-0089; and Master Beneficiary Record, 60-0090. Additional information about these and other system of records notices and our programs are available online at www.socialsecurity.gov or at your local Social Security office.

We may also share the information you provide to other agencies through computer matching programs. Matching programs compare our records with records kept by other Federal, State or local government agencies. We use the information from these programs to establish or verify a person's eligibility for federally funded or administered benefit programs and for repayment of incorrect payments or delinquent debts under these programs.

SECURITY DEPOSIT DISPOSITION

California Civil Code Section 1950.5 requires that within three weeks (21 days) after the tenant has vacated the rental unit the owner must either:

1) return the security deposit to the tenant

2) furnish a copy of an itemized statement indicating the amount of any part of the security deposit used for:

California law specifically allows the landlord to use a tenant's security deposit for four purposes:

for unpaid rent,

for cleaning the rental unit when the tenant moves out, but only to make the unit as clean as it was when the tenant first moved in

for repair of damages, other than normal wear and tear, caused by the tenant or the tenant's guests and

if the lease or rental agreement allows it, for the cost of restoring or replacing furniture, furnishings, or other items of personal property (including keys), other than because of normal wear and tear.

A combination of #1 and #2.

Effective January 1, 2003, rental property owners must perform a walk-through with residents no earlier than two(2) weeks prior to the termination of the tenancy. The intent of this new law is to give residents an opportunity to remedy identified deficiencies in the unit prior to move out.

How Can I Test My Fax Machine?

I just hooked up a new fax machine, and I'd like to test it, just to make sure it works. How can I do that?

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both.

To test the send functionality of your fax machine, send a one page fax to 1 855-740 1279 (a toll free number in the United States.) When it's finished transmitting, point your web browser to The Toy (it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to j2x.com; this site lets you send faxes for free to any where in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

CALL FORWARDING BUSINESS GUIDE

Activating Your Call Forwarding Service

Call Forwarding allows you to transfer all of your calls to any local, regional or long distance telephone number. This feature can be activated from your business line that is equipped with the Call Forwarding feature.

Getting Started.

1. Lift the handset and listen for dial tone.
2. Dial *72
3. At the tone, dial the telephone number that you want to forward your calls to. You must dial it exactly as you would if you were making a call to that telephone number.
4. If the call is answered at the destination end, the feature has been activated.
5. If the call is not answered, hang up and repeat the process outlined in Step 3 again within 2 minutes. After it rings once, you can hang up and the Call Forwarding has been activated.

Deactivating Your Call Forwarding Service

The Call Forwarding feature must be deactivated from the same line equipped with the Call Forwarding feature. This is the same line you used to activate the Call Forwarding service.

Deactivation:

1. Lift the handset and listen for dial tone.
2. Dial *73
3. You will hear two short tones. This signifies that the Call Forwarding has been deactivated. Hang up the receiver.

Other important information you should know about your Call Forwarding service:

- Calls forwarded with this service are subject to local or toll charges. If your line is toll restricted, you cannot forward calls to a toll number.
- You have the ability to make outbound calls while call forwarding is activated.
- A short reminder tone will sound at your business when a call is forwarded to another number but you will not be able to answer it.
- Only one call can forward at a time. A second call coming in will receive a busy signal until the first call is disengaged.

or call the Business Service Centre. Refer to your User Guides.

IMPORTANT INFORMATION ABOUT THE LIFELINE PROGRAM: Assurance Wireless is a voice-supported service. Lifeline is a federal benefit, and only eligible subscribers may enroll. Customers who willfully make false statements in order to obtain the benefit can be punished by fine or imprisonment or can be de-enrolled or barred from the program. One, lifeline discounted service bundle or wireless is available per household. A household is one or more individuals who live together at the same address and share income and expenses. A household is not permitted to receive Lifeline benefits from multiple providers. Violation of the one-per-household rule constitutes a violation of federal rules and will result in de-enrollment from the Lifeline program and potential criminal prosecution by the United States government. Lifeline is a non-transferable benefit. Service cannot be transferred to any individual, including a member of your household.

4 SIGNATURE

By signing below I certify under penalty of perjury that the information contained within this Application is true and correct to the best of my knowledge.

I participate in a qualifying federal Program or meet the income qualifications to determine eligibility for Lifeline. If proof of eligibility is required, I have provided the required documentation as listed in Section 2.

If I have provided a temporary address, I must notify Assurance Wireless within 30 days of any change of address. Assurance Wireless will attempt to verify every 90 days that I continue to reside at that address. If I do not respond to these address verification attempts within 30 days, I will be de-enrolled.

I will inform Assurance Wireless within 30 days of the following, and may be subject to penalties if I fail to do so:

I move to a new address.
I no longer participate in a Lifeline qualifying Program or my annual household income exceeds 135% of the Federal Poverty Guidelines.
I become aware that my household is receiving more than one Lifeline benefit.
For any other reason, I no longer meet the criteria for Federal Lifeline Support.

I authorize Assurance Wireless or its agent to access any records (including financial records) required to verify my eligibility or to confirm my eligibility to Assurance Wireless. I further re-state or federal agency representatives to disclose such records and provide information to, Assurance Wireless verifying my participation in public assistance Programs that qualify me for Assurance Wireless service.

I authorize Assurance Wireless to provide access to or release any records required for the administration of Assurance Wireless service.

I understand that the completion of this application does not constitute my service approval for Assurance Wireless service.

Prayer to St. Joseph over 1900 years old

O St. Joseph whose protectum is so great, so strong so prompt before the Throne of God I place in you all my interests and desires O St Joseph do assist me by your powerful intercession and obtain for me from your Divine Son all spiritual blessings through Jesus Christ, Our Lord; so that having engaged here below your Heavenly power I may offer my Thanksgiving and Homage to the most Loving of Fathers. O St. Joseph, I never weary contemplating you and Jesus asleep in your arms I dare not approach while He reposes near your heart Press him in my name and kiss His fine Head for me, and ask Him to return the Kiss when I draw my dying breath St. Joseph, Patron of departing souls pray for us. Amen

Say for nine consecutive mornings for anything you may desire. It has seldom been known to fail.

This prayer was found in the fiftieth year of Our Lord Jesus Christ. In 1500's it was sent by the Pope to Emperor Charles when he was going into battle

Whoever reads this prayer or hears it or carries it, will never die a sudden death, nor be drowned, nor will poison take effect on them They will not fall into the hands of the enemy nor be harned in any fire, nor will they be defeated in battle.

Make this prayer known everywhere.

Imprimatur
Most Rev George W Ahr
Bishop of Trenton

How Can I Test My Fax Machine?

I just hooked up a new fax machine, and I'd like to test it, just to make sure it works. How can I do that?

Presumably you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both.

To test the send functionality of your fax machine, send a one-page fax to 1 855 330 1239 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax.Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero, this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully it will automatically answer and spit out the test fax.

Patient-Controlled Taping for the Treatment of Ingrown Toenails

Marco Legrenzi, MD
Raffaele Mazzeschi, MD

ABSTRACT

The aim of this study was to test the safety and effectiveness of a new taping method to prevent ingrown toenails. The use of this technique in 1,143 patients with ingrown toenails from 1,453 nails was evaluated. All patients were examined before the use of the technique. Complete healing and absence of pain were recorded after the first application in 1,021 patients (89.3%) and after 2 applications in 1,278 patients (89.6%). The overall healing effectiveness of the technique was 89.6%. The method had no recorded side effects. Patient compliance was excellent. Because of its ease of use, low cost, and effectiveness, this technique should be considered the first choice for the treatment of ingrown toenails.

INTRODUCTION

Various methods have been used to treat ingrown or pincer nails (curved toenails, nail splitting, conservative wedge packing, nail avulsion, or with a nitric acid wick or cauterization, to name a few).[1] The method we have used and reported here is very patient friendly, as we reasoned that by preventing the pincer action of the nail, we could avoid the inflammatory process and the pain. Moreover, this method is cost-effective and does not require any special skills.

With conventional techniques, the patient must return to the office many times for taping and subsequent untaping or removal of the wedge. In addition, the patient can develop some degree of pain, depending on the procedure. This method requires a one-time taping and the patient can perform the untaping and retaping at home.

METHODS

We evaluated the efficacy of the method by using a study we developed in a retrospective, observational, case-series study with a control group. Institutional review board approval was not obtained because the protocol and taping procedure are standard. See Figure 1. The elastic adhesive tape (Elastoplast, Smith&Nephew, width=25 mm) was chosen. A 4-cm piece of tape was used in previous practices. The procedure is explained in the Sample Case and Procedure.

While the study period was underway, the technique was modified. Initially, each nail was taped with a single piece of tape. However, a second piece of tape was added to the first one to reinforce the taping when it was observed that the tape was not adequately holding the nail edge. Also, it was observed that the tape tended to peel away from the skin and nail edge. Therefore, a small piece of tape was placed on the nail edge to prevent the tape from peeling away from the nail edge. Patients were instructed to remove the tape daily and retape it. Patients were also instructed to soak their feet in warm water and to gently massage the nail edge. If the nail edge was painful, which usually occurred in the first few days of taping, patients were instructed to remove the tape and apply a new piece.

The most common type I drug was cephalexin (Keflex, 500 mg). Patients with known allergies to penicillin were treated with clindamycin (Cleocin, 300 mg). Patients were instructed to take the medication for 7 days. Patients were also instructed to apply a topical antibiotic ointment (Neosporin) to the nail edge after soaking the feet in warm water. Patients were instructed to return to the office if they experienced any adverse reactions to the medication.

"HPV" — HIGH PRESSURE VAPOR LEAVING COMPRESSOR.

"HPL" — VAPOR IS COOLED DOWN BY CONDENSER AIR FLOW AND LEAVES AS HIGH PRESSURE LIQUID.

"LPL" — ORIFICE METERS THE LIQUID R-12 INTO EVAPORATOR, REDUCING ITS PRESSURE AND WARM BLOWER AIR ACROSS EVAPORATOR CORE CAUSES BOILING OFF OF LIQUID INTO VAPOR

"LPV" — LEAVES EVAPORATOR AS LOW PRESSURE VAPOR AND RETURNS WITH THE SMALL AMOUNT OF

"lpl" — LOW PRESSURE LIQUID THAT DIDN'T BOIL OFF COMPLETELY BACK TO THE COMPRESSOR TO BE COMPRESSED AGAIN

ayes Any liquid Refrigerant-12 which may accidentally escape is approximately 30°F (-64°C) below zero If liquid Refrigerant-12 should touch the eyes, serious damage could result Always wear goggles to protect the eyes when opening refrigerant connections. If Refrigerant-12 liquid should strike the eye:

a. Call a doctor or eye specialist immediately and obtain treatment as soon as possible

b. DO NOT RUB THE EYE. Splash the affected area with quantities of cold water to gradually get the temperature above the freezing point.

c. The use of an antiseptic oil is helpful in providing a protective film over the eyeball to relieve the possibility of infection. Should liquid Refrigerant-12 come into contact with the skin, the affected area should be treated the same as skin which has been frostbitten or frozen

All Refrigerant 12 drums are shipped with a heavy metal screw cap. The purpose of the cap is to protect the valve

The table below indicates the pressure of Refrigerant — 12 at various temperatures. For instance, a drum of Refrigerant-12 at a temperature of 80°F (26.8°C) will have a pressure of 84.1 PSI (579 kPa). If it is heated to 125°F (51.6°C), the pressure will increase to 167.8 PSI (1154.9 kPa). It also can be used conversely to determine the temperature at which Refrigerant — 12 boils under various pressures. For example, at a pressure of 30.1 PSI (207.5 kPa), Refrigerant — 12 boils at 32°F (0°C).

The staples have form the rear of the staple. At the back end of the staple placed back, locate that area directly beyond the end of the stapler. The cover will have the staples in the stapler. To open the cover, locate the plastic area about half the distance between the stapler's front and back. Please note that pressing the plastic area will open the cover, but that action will not release the staples. Once the cover is open, locate the staple pusher. It is the metal piece at the spring device to push the staples in place. The staple is now loaded and ready to use. I hope this helps you out.

Our Father which art in heaven,
hallowed be thy name.
thy kingdom come;
thy will be done
on earth as it is in heaven
Give us this day our daily bread
And forgive us our trespasses
as we forgive them that trespass against us
And lead us not into temptation,
but deliver us from evil
[For thine is the kingdom
the power, and the glory,
for ever and ever.]

These "Prophetic Words" are given through inspi[illegible]e Holy Spirit to help you be aware of blessing changes coming into your life. People are hungry f[illegible] spiritual guidance. Unfortunately many are turning to the wrong place. Psychics, mediums and clairvoyants have no place in God's plan for your life. THE ONLY TRUE SOURCE OF INFORMATION ABOUT THE FUTURE IS GOD'S WORD AND HIS HOLY SPIRIT. PROPHECY IS NOT GIVEN TO MAKE YOU CURIOUS ABOUT THE FUTURE, BUT TO MOTIVATE YOU TO LIVE FOR GOD TODAY. PROPHECY IS A FREQUENT THEME IN THE BIBLE AND A SOLID FOUNDATION OF OUR FAITH. AS YOU READ THIS PROPHETIC WORD, YOUR FAITH CAN BE STIMULATED AND STRENGTHENED, AND YOUR SPIRIT CAN BE INFUSED IN A DIVINE MANNER. Tell us if this is you and your life or not.

"PROPHETIC WORD GIVEN FOR YOUR SPIRITUAL EDIFICATION"

MY CHILD, RECEIVE IN YOUR HEART AND SPIRIT THESE WORDS FOR TIME IS MOVING QUICKLY. I HAVE REVEALED TO YOU THAT THERE IS A GREATER PURPOSE IN YOUR LIFE THAN YOU HAVE YET DISCOVERED. IT IS MY PURPOSE THAT MANY MYSTERIES BE OPENED TO YOU. NO MYSTERY CAN BE WITHHELD FROM THE MIND THAT IS OPEN TO MY SPIRIT.

EVEN NOW YOU ARE FACING A DECISION THAT MUST BE MADE. MY SPIRIT IS AT WORK INSTILLING IN YOU A NEW, GREATER UNDERSTANDING IN THE WAY I AM DIRECTING YOU. THERE ARE MANY THINGS WHICH YOU NEED TO KNOW, BUT THIS CAN ONLY COME THROUGH YOUR CAREFUL, CONSISTENT AND PERSISTENT COMMUNICATION WITH ME.

IT IS TIME FOR YOU TO SET NEW GOALS IN YOUR LIFE. YOU CANNOT BE HAPPY WITH LIFE UNCHANGED. THE NEW GOALS I AM HELPING YOU ESTABLISH CAN REMOVE APATHY. YOU ARE BEING SET FREE FROM THE FEELING OF INADEQUACY AND A NEW ENTHUSIASM IS BEING CREATED. THIS MAY, IN TURN, RELEASE AND REGENERATE POWER INTO YOUR SPIRIT.

THE POWER TO SPEAK BLESSINGS INTO YOUR OWN LIFE IS IN YOU. YOU MUST DISCOVER THE WAYS TO USE THIS POWER. AS YOU DAILY SEEK ME IN PRAYER, UNDERSTANDING OF THE GIFTS IN YOU WILL COME FORTH, AND THE EVIDENCE OF THIS WILL BECOME APPARENT TO THOSE AROUND YOU.

DUE TO MY SPIRIT WORKING IN YOU, GREATER CONTROL OF THE PRESENT AND FUTURE PLANS CAN BE AT YOUR FINGERTIPS. YOU MAY FEEL INNER POWER GROWING BECAUSE OF YOUR CLOSENESS TO ME. NEW BOLDNESS IS BEING BIRTHED EVEN NOW AS YOU ARE OBEDIENT TO MY INSTRUCTION, MY SPIRIT WILL CREATE IN YOU AWARENESS OF WHICH STEPS TO TAKE AND WHICH STEPS YOU SHOULD NOT TAKE CONCERNING PLANS YOU HAVE MADE AND THOSE YOU ARE TO MAKE. I WILL DIRECT YOUR STEPS, AND THE PATH I LEAD YOU ON CAN TAKE YOU AWAY FROM THOSE WHO WOULD DAMAGE THE PLANS I HAVE FOR YOU AND TAKE YOU TOWARD THE PATH THAT LEADS TO THE FULFILLMENT YOU SEEK.

MY DEAR CHILD, I HAVE MUCH JOY PLANNED FOR YOU. AS YOU REMAIN FAITHFUL IN YOUR SEED SOWING INTO MY KINGDOM, SURELY YOU SHALL BE BLESSED. BE NOT WEARY IN WELL DOING. FOR YOU SHALL HAVE YOUR PROMISED REWARD. I SAY UNTO YOU, MEDITATE ON THESE THINGS I HAVE SAID, FOR YOU SHALL SEE THEM WITH YOUR OWN EYES (JOEL 2:28,29).

THANK GOD THAT THIS ANOINTED PRAYER RUG IS BACK IN THE MAIL, ON ITS WAY TO THIS 60-YEAR-OLD CHURCH, SO WE CAN SEND IT ON TO ANOTHER DEAR SOUL. WE THANK YOU. – AMEN

(Atlanta GA)- This year the tea market reached a whopping 5.1 billion dollars in sales inevitably leading to an immense amount of specialty gourmet, supermarket, natural foods and gift basket buyers trying to get their hands on a piece of this golden pie. However what will truly make a tea stand out in the overcrowded market is not only quality, but versatility and convenience. When looking for such a tea, look no further than **Tzu Thé at Booth #4448 at the NASFT Fancy Food Show in San Francisco.** With their world class packaging **Tzu Thé** offers healthy convenient and fashionable green tea products for any lifestyle making it truly "revolutionary."

Tzu Thé's beautiful innovative and unique packaging will draw the consumer's eye directly to this product on the shelves. **Tzu Thé** is the first green tea company to offer the single-serving T-POD™ filled with premium loose dry green tea leaves that are pesticide-free and packed full of EGCG[1]. These convenient individual tea pods make drinking green tea easy for consumers on-the-go. For even more convenience **Tzu Thé** has introduced a line of accessories. The first is the T-Buddy™ a "Two Headed" portable tea bottle with a built in infuser that doubles as a tea mug and a tea pot for hot or cold beverages on the go. The second is T2-GO a steeping device that snaps on to standard 12oz and 16oz hot paper cups.

Tzu Thé has also combined all the health benefits of green tea with the popularity and convenience of food bars creating the innovative T Bar™. The T Bar™ is a raw, whole food, green tea nutrition bar that has been cold processed, promoting optimum enzyme activity. These vegan-friendly bars contain

February 2012

Dear TSP Participant,

The TSP is turning 25!

Established by the Federal Employees' Retirement System Act of 1986, the TSP opened its doors to investors in April 1987. In those early years, Federal employees had to wait six months to a year to sign up for the TSP. There was only one investment fund—the G Fund—and contributions were strictly limited. Participants could adjust the amount of their contributions only during semiannual open seasons, and when we introduced the C and F Funds, only FERS participants who had contributed their own money could make an interfund transfer—once each open season by way of a mailed form. There was no website and no automated ThriftLine. Looking back on it, the TSP was a "hand-tones" operation.

We've come a long way since then. Today the TSP is widely recognized as one of the finest, most elegantly simple, and popular retirement plans of its kind. With over 4.5 million civilian and uniformed service participants and assets of nearly $300 billion, it is certainly the largest defined contribution retirement plan in the world. Since 1987, we've introduced four new funds (C, F, S, and I Funds) and five Lifecycle (L) Funds. We have a new website and a toll-free ThriftLine to help you manage your account. There is now daily valuation, automatic enrollment, immediate contributions, Web-based interfund transfers and other transactions, beneficiary participant accounts, loans, hardship withdrawals, partial withdrawals, and many more features. And we provide all of this with an extraordinarily low expense ratio of 2.5¢ per $1,000 account balance in 2011.

In the past year, we have been focusing a great deal of our time and efforts to bring you a Roth TSP option. If you are an active (contributing) participant, the Roth feature will give you the opportunity to make after-tax contributions that will grow in your account tax-deferred. When you withdraw your Roth balance, you will pay no further taxes on your contributions and, provided you satisfy certain Internal Revenue Code requirements, no taxes at all on your earnings. Participants have been asking for a Roth option, and we are very pleased to be on the threshold of making this a reality. Enclosed in this mailing with your 2011 annual statement, we are providing a leaflet summarizing the features of the Roth option and its benefits. The enclosed TSP *Highlights* provides additional information to help you consider whether Roth contributions could be to your advantage. What better way to celebrate our 25th year than by introducing such an important feature?

AVG Rescue CD Guide

This document contains

- Introduction
- Acquiring the AVG Rescue CD
- Starting the AVG rescue CD
- User Interface
- Scanning the computer
- Network settings and Updates
- Other utilities

Introduction

The **AVG Rescue CD** is a **repositioned** set of tools that can be started from CD or USB flash disk. It can be used to monitor computers that are not able to boot or are infected by a virus that will not allow normal operation. The whole CD or USB flash drive is a **live CD** with Linux operating system and AVG preinstalled on it.

This **document** will guide you through basic operations of AVG Rescue CD and its features. You can also get additional information in the Knowledge base section of the AVG web pages.

Acquiring the AVG Rescue CD

You can download the AVG Rescue CD from the download section for free. There are two files you can download: ISO file and RAR archive. The ISO image can be used to burn a CD or DVD. The section can be bootable on USB device (flash drive).

Using the ISO to create a bootable CD/DVD

The downloaded ISO file can easily be used to create a CD or DVD with AVG rescue CD. You will need an application for burning a CD/DVD. In this application, mostly option **Burn Image file** (ISO file or similar option). Insert the medium in the drive and choose the burning. No special settings are needed.

Using the RAR version to create a USB bootable device

To create a USB flash drive version of AVG Rescue CD you will need to do the following

- Extract the archive downloaded from AVG web directly on the **removable USB flash drive**. It has to be extracted in the root folder of the disk - do not use a subfolder.
- Run the extracted **makebootusb.bat** batch file. When asked, it will overwrite the boot record. **Make sure you are using the desired USB flash drive, otherwise it can make your Windows un-bootable!**
- In the **Select** window either any key to prepare the USB flash drive.
- When this process is finished (**message** will be displayed) you can close the window.

Preparing the computer

The AVG rescue CD is now ready. Insert the CD in the drive or plug in the USB drive. You will however need to make sure that the computer you plan to use the CD/USB flash drive on can boot from such a device. There are several methods of setting this behavior on the computer. They depend on the precise model of the BIOS of the computer. In general, however, the technical support of motherboard **vendor** the most common methods are

- Pressing **ESC** during the startup. This may display list of bootable devices to choose from. Select CD or USB.
- Pressing **DELETE** or **F2** during startup to enter BIOS settings. When in BIOS, locate the option called **drive order**, **drive options** or **boot**. Here, move the CD or USB flash drive to the first place. Exit the BIOS, saving the changes. Please note, that changing settings in BIOS should only be done by **skilled users.**
- Pressing any key during **startup**. If message similar to "Press any key to boot from CD or DVD" appears.

Starting the AVG Rescue CD

The AVG **Rescue** CD will mostly display a welcome screen. You can proceed directly by pressing **ENTER** or waiting 10 seconds. If you need to specify some additional parameters press **F2**. This will **allow** you to choose the screen resolution and will show other boot options.

Hello World!

RoHS Information

RoHS stands for Restriction of Hazardous Substances. Many times you may also have heard the phrase "lead-free" used in the same context. However, since "lead-free" does not fully cover the scope of RoHS. This does not use the term lead-free outside case. Thanks Daughter

RoHS compliance means that the product is deemed to be compliant to the new European Union standard governing the design of products that may contain certain hazardous materials. This Hammer is scheduled to go in sale in the July 2006 Telephone. Many of the Dell PCs products are already not shipped due to EMC/EMI. But compliance ensures that we continue to do business in the fast growing region.

Certain states, in the United States either have or are considering similar substances regarding these substances, and these ordinances for the most part mimic the E.U. Process. Currently was out of the first states to pass this legislation.

The substances that fall under this restriction but are to be regulated include the following:

- Lead
- Mercury
- Cadmium
- Hexavalent chromium
- Polybrominated biphenyls (PBBs)
- Polybrominated diphenyl ether (PBDEs)

The does not mean that the products but only are completely free of these substances for parts either they are, but that they conform to the limits passed by the organization. We do weight of each and materials of the product.

The DellPlex™ 745 is 100% RoHS compliant.

Marks 2

(d) Does this reaction absorb or release heat energy? How can you tell?

It releases heat energy, since the measured enthalpy change depicts that.

1

(e) How does the enthalpy or potential energy of the products compare with that of the reactants?

The products have 180 kJ less potential energy than the reactants.

Assignment 2

Consider the following reaction:

(1) $Zn(s) + 2HCl(aq) \rightarrow H_2(g) + ZnCl_2(aq)$ + heat energy

3

1 If 30.0 g of Zn react, how many grams of H_2 will form?

[illegible] of H_2

3

2 State three properties that would be suitable to monitor in determining the rate of the reaction.

[illegible] the Zn reactant,
[illegible] H_2 being captured,
and [illegible] of the solution.

1

3. Write out an expression for the rate of the reaction in terms of the rate of change of a single property

$$\text{Rate} = \frac{\text{change in [illegible]}}{t}$$

Module 4- Maintaining Good Student Behavior

Module 4 discusses three types of consequences- positive, negative, and corrective. A positive consequence is a desired outcome that follows a behavior and serves to increase or maintain that behavior. A negative consequence is an understood action or event that follows a behavior and serves to decrease it. Corrective consequences ask students to demonstrate a behavior and to think about why that behavior is valued. There are many situations when these consequences can be used.

When in my classroom I would try to use corrective consequences the most. I think it is important for students to really know why a behavior is wrong or right. Using corrective consequences helps students understand this better. I would try to minimize using positive and negative consequences, but I know that there are some instances when they are necessary

K&N Air Filter Cleaning Instructions

If you do not have a number, see *How to get a TIN*, later.

Cc: [redacted]

Hot off the press!

Faygo will be promoting their 2 liters at least through the end of the year. The new cost, starting tomorrow, will be .95 with a $1.19 retail. The flavors will come with a preprinted label:

- Cola
- Minnemist
- Red Pop
- Orange
- Grape
- O'Hara

Even though only six of the bottles will have a preprinted label, ALL Faygo 2 Liters will have a $1.19 retail. This is a great margin and I am confident it will be a great additional to our line up. Please make sure that all of your agreements are changed out tomorrow so it has the maximum impact on sales.

For the month of November all of the Faygo 2 Liters will be on our sign packages. The retail will be 2/$2.72 or one for $1.19 + deposit.

Go Faygo!!!
